

Internet Safety Cyber Warrior Pledge

I will follow all rules that my parents/guardian or educators set up for going online. I will not break these rules because I know that my safety online is important.

I will tell a trusted adult if I receive a message that makes me feel uncomfortable and will block cyberbullies.

I will not download anything without permission from my parents/guardian or educator.

I will never share or post personal information online without permission from my parents or guardian. This includes my name, address, school information, parents' or guardian's work information or pictures of myself or family.

I will never respond to mean messages that I receive, for example through e-mail, instant messaging or in chatrooms. I will tell a trusted adult about these messages and delete them. I will never send mean messages myself.

I will never meet a stranger that I met online in person without getting permission from my parents or guardian. If my parents or guardian give me permission I will make sure that they come with me to keep me safe.
